EVERGREEN PRODUCTS AND APPLIED COMFORT TEAM UP

Evergreen Products And Applied Comfort Team Up To Provide NYC With The Most Dynamic Line of PTAC's For The NYC market!

January 7, 2013
Woodside, New York

Evergreen Products, LLC announced today expansion of their product line to include a wide range of replacement models (model matrix). In addition to their most popular 36" and 42" chassis, Evergreen will stock replacements of many popular models including legacy or obsolete sizes. Some models even exceed original manufacturers' performance.

Evergreen Service will back the new models with an unprecedented 18 month parts and limited labor warranty to support New York and New Jersey customers from its 2 service locations. A full line of accessories will also be available to complement some models, specifications, and product features to be announced in the coming weeks. For inquiries on specific products please email:

Applied Comfort (ACP) is a leading PTAC manufacturer located in Toronto, Canada with many existing NYC installations. Evergreen Products is well versed in the new construction market with robust local support and post-sale service capabilities. Together, the two companies are able to offer a remarkable expertise on PTAC replacements through proven designs and improved features. ACP customers will immediately have access to Evergreens 10,000 sq ft. service facility located in Woodside, NY for new service or maintenance agreements. Evergreen will also open a service depot with ACP stock at its Bellville, NJ location.
